

JAL Introduces Premium Economy Service on Sydney – Tokyo Route

Sydney, November 10, 2009: Japan Airlines (JAL) will introduce Premium Economy service on the Sydney – Tokyo (Narita) route starting from December 1, 2009. The once-daily flight, also equipped with the airline's JAL Shell Flat Seat in executive class is operated with a Boeing 777-200ER aircraft.

The JAL Sky Shell Seat, which won the 2008 Good Design Award, is the world's first shell-shaped seat in premium economy class. It boasts a 9-inch personal TV screen and provides 20% more legroom than regular economy class with its shell-shaped sliding seat-back design which ensures passengers' private space is maintained throughout the flight, undisturbed even when the seat in front is reclined. Passengers can also enjoy a meal service created for Premium Economy class.

At the airport, passengers can take advantage of the dedicated Premium Economy check-in service at both Sydney and Tokyo, along with access to the airport lounge, and priority baggage service.

Special introductory return fares from Sydney to Tokyo will be on sale from AU\$1500 plus taxes of around AU\$300.

Ticket sales and reservations start tomorrow, November 11, 2009.
